📍 Triều Khúc, Thanh Xuân, Hà Nội

SKILLS

VUEJS, NUXTJS

VUEX, PINIA

REACTJS

UI: ANTD, ELEMENTUI

HTML, CSS

JAVASCRIPT, TYPESCRIPT

INTERESTS

Billards, Football

SUMMARY

I have 4 years of frontend engineer experience. Solving optimization problems to build the best system is my passion. With me creating the best experience for user is my priority. I also spend time learning new technologies and best practices to become a better engineer. I always want to challenge myself. It help me to learn new things and broaden my mind.

WORK EXPERIENCE

FRONTEND DEVELOPER

02/2024 - Present

Rikkeisoft Company

Project T*:

- **Description** : Is an outsourcing project for exchange with a large team size
- **Technology**: Vuejs, Chartjs, socket, Memblure.js, vuex-map-fields
- **Responsibility**:
 - Create component base, Implement requirements with kyc and payment modules.
 - Convert design mockups into responsive HTML/CSS/JS code.
 - Handle front-end side authentication, routing, and state management. Ensure front-end code quality, readability, and scalability
 - Ensure cross-browser compatibility and responsive design practices
 - Utilized vuex-map-fields to streamline form data management by directly binding Vuex store fields to form inputs using v-model, improving code readability and maintainability in complex form-driven pages
 - Applied debounce/throttle techniques to optimize scroll and input events, reducing CPU usage on dynamic dashboards.

FRONTEND DEVELOPER

11/2022 - 02/2024

Vuihoc Company

Project IeltsSpeed :

- **Description** : IeltsSpeed is a smart, interactive learning platform designed to help students prepare for the IELTS exam more effectively using a combination of AI technology and human coaching.
- **Technology**: Nuxt2, Chartjs, HTML, CSS
- **Responsibility**:
 - Create test preparation module, do Ielts exercises, correct Ielts exercises
 - Built responsive, accessible, and mobile-friendly user interfaces for student and teacher dashboards.
 - Handled audio recording and playback features within the browser for speaking practices. Using lazy loading improves UI/UX

Project TuTor :

- **Description** : It is a place to create teaching classes for students, monitor students in the classroom and create learning reports.
- **Technology**: Nuxt2
- **Responsibility**:
 - Create a module to report tutoring sessions and a camera feature to monitor students during class.
 - Admin & teacher dashboards for managing classes and giving feedback. Convert Figma or design mockups into responsive HTML/CSS/JS code.
 - Using lazy loading improves UI/UX.

iCOMM Media & Tech, Jsc

Projec Smart camera for VNVC :

- **Description** : The Smart Camera Project aims to develop and implement a cutting-edge surveillance system for VNVC.
- **Technology**: Vue2, ElementUi, socket, canvas, highcharts
- **Responsibility**:
 - Create project, configure workspace for camera in canvas
 - Develop and maintain user interfaces for the camera management system, including dashboards, charts, and real-time monitoring components
 - Implement real-time data updates (e.g., via WebSocket or polling) for live camera feeds or alerts.
 - Handle front-end side authentication, routing, and state management.

Projec Smart City:

- **Description** : It is a miniature smart city integrated application that monitors the activities of each individual according to the provided data source.
- **Technology** : Vue3, Antd, canvas.
- **Responsibility** :
 - Implement object tracking, display object information data from returned API and send tracking information

Projec Extension:

- **Description** : This project focuses on building a cross-platform browser extension that automates the extraction of publicly available data from social media platforms such as Facebook, YouTube, and Twitter.
- **Technology** : Html , Javascript , JQuery
- **Responsibility** :
 - Write content scripts to interact with the DOM of Facebook, YouTube, and Twitter. LocalStorage or IndexedDB integration for caching
 - Ensure the crawler adapts to different layout changes and dynamic content loading (infinite scroll, lazy loading).

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY

2017 - 2022
